- The U.S. can protect public health AND safeguard the lives of children, families, and adults seeking U.S. protection. So why is the Biden admin still blocking people from seeking asylum? #WelcomeWithDignity
- Former President Trump & Stephen Miller misused Title 42 in one of more than 1000 executive actions and administrative changes to kick out and keep out refugees and immigrants. This is not a legacy the Biden administration should be continuing. #WelcomeWithDignity
- What happens to refugees expelled to danger by the Biden Admin under Trump's #Title42 policy?
 - In Mexico: rape, torture, murder & other abuses
 - In the countries they fled: the same violence & persecution that drove them to seek U.S. asylum #WelcomeWithDignity
